

What – Third Annual Statewide collaboration meeting in-person for CTE Teachers to participate in professional development including a presentation from the Beauty Cast Network on using AI to support teacher effectiveness, sharing best practice with other teachers, participating in keynote presentation by the CTE TAC Keynote presenter Jane Oates on enhancing workplace partnerships, and making important connections to others from across the state to continue collaboration efforts in the coming school year.

When – The meeting will be held on Tuesday, June 17, 2025, from 9:00 AM to 1:00 PM, and will be offering an opportunity to attend a presentation by Burmax on clipper cutting techniques on the Night before from 5:00 – 7:00 PM at the Broome-Tioga BOCES location as well. There are many hotels in the area for those traveling from parts of the state more distant included in the map below.

Who – All Appearance Enhancement Teachers and TA's including Cosmetology, Barbering, and Nail Tech program areas. There will be no charge for attendees this year. All are welcome to attend. A lunch will also be provided for this meeting as well, however the other clusters held at this site will not have a lunch provided.

Why – Although the CTE TAC will be holding seven regional events, this particular site will be hosting Teachers from across the state in a effort to continue collaborative partnerships between teachers as has been done previously. The Tac meetings are still an option for those who do not or cannot travel to the Binghamton area, but for those who can, it will continue NYSTTTA's commitment to provide opportunities to work with others who share your passion and expertise in the Appearance Enhancement program areas.

About our Presenters

AI & Your Classroom: How Artificial Intelligence is Transforming Education
AI-driven booking, POS, and marketing tools are reshaping how salons connect with clients. For learners, AI tutoring is likely to soon disrupt cosmetology school education, but in many ways the future is already here. Forward thinking educators are using platforms like OpenAI to create lesson plans, quizzes, study guides and more. This session will explore AI's impact on education, and what it means for schools, educators, and students today -including real world examples of how educators can use AI today to enhance learning.

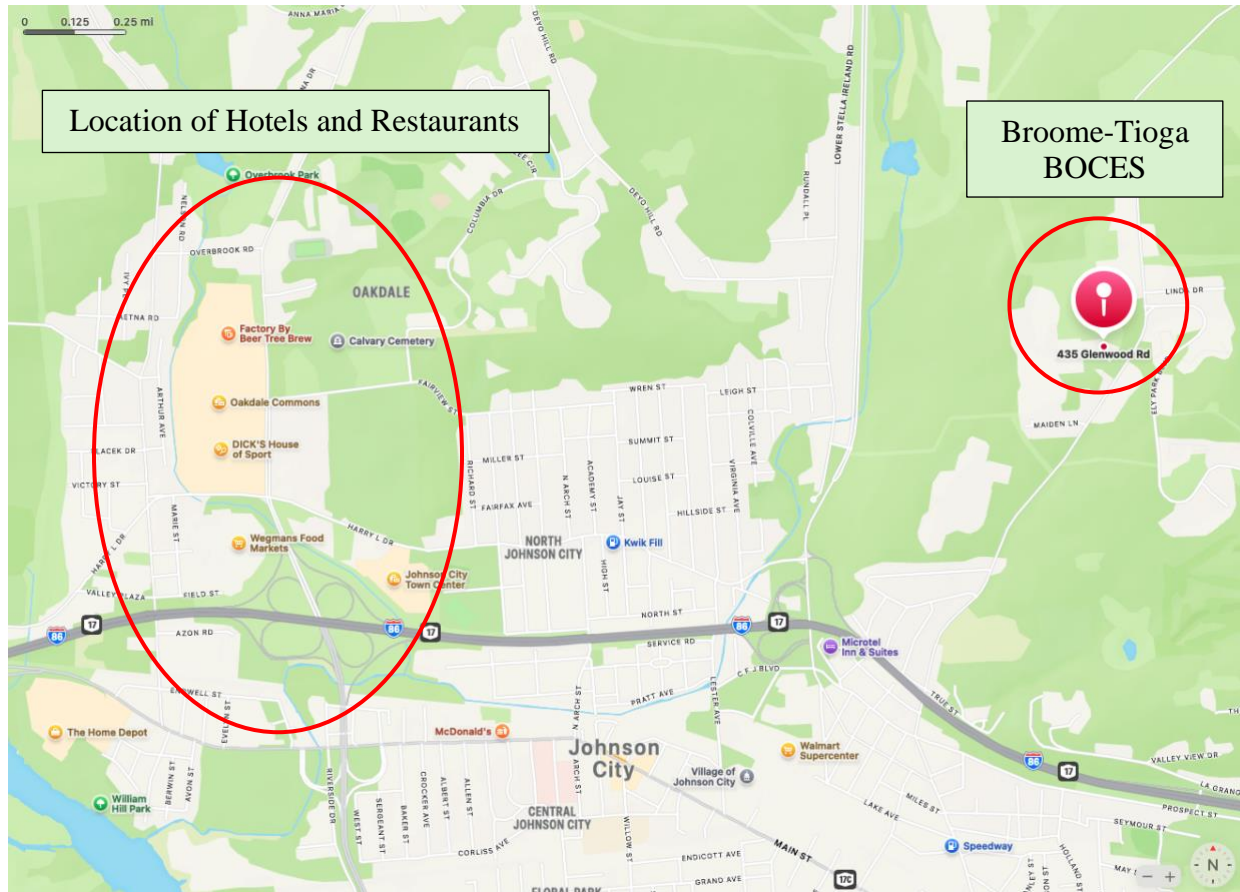

Beauty Cast Network is a dynamic career services platform designed to support schools, students, and employers, ensuring that talent and opportunity align seamlessly. At Beauty Cast Network, talent meets opportunity, helping beauty professionals take their first steps toward lifelong success.

Penny Burns – Founder, Beauty Cast Network
